## DEATH TRAP.

**Weak False Work Causes a Hor-  
rible Disaster.**

**A New Truss Bridge Crushes  
into the Licking River Car-  
rying a Score of Men to  
Death.**

Cincinnati, O., June 15.—A  
catastrophe such as throws a pall  
of sorrow over a community  
and sends a thrill of horror  
through the civilized world  
happened on the Licking river  
between Newport and Covington, Ky., this forenoon. A  
wagon and street railway bridge  
was in process of construction  
between the two cities. It left Covington at Twelfth  
street and entered Newport at  
Eleventh street. The Chesapeake  
and Ohio railway bridge  
crosses the Licking about 500  
yards above this point. The  
banks of the Licking are very  
steep at the point where this  
road-way and street railway  
bridge is to cross. Their slope is  
at least fifty degrees, and  
they are very high.

The contractors for the iron  
work of the bridge were the  
Baird Bros., of Pittsburgh. They  
were Andrew and Robert  
Baird. Ever hereafter they  
will be spoken of in the past  
tense, for they both went down  
to death with their two score  
or more of workmen.

The bridge was a strong  
wrought iron structure. The  
great stone piers on each side  
of the river were finished, as  
also were the approaches to  
them. The iron work of the  
approaches is very massive.  
The span between the two piers  
looks to be 300 feet. The  
height of the bridge was to be  
to form the bridge span between  
these two piers, was sixty-five feet above low water.

False work of piling and tim-  
bers had been constructed in  
the river. On the top of this  
false work the construction of  
the iron truss began exactly  
midway between the two piers  
and the work was pushed from  
the middle both ways. Five  
bents or sections of the ponderous  
iron work had been con-  
structed. Each bent or section  
was thirty feet long, making  
nearly half the span. On the  
top of this was an apparatus  
known to bridge men as the  
traveler, which is used to ex-  
tend the structure from the  
ends. This traveler rose some  
thirty feet above the main  
structure.

It was full of men at 10:30  
o'clock this morning, and some  
of them near the top of it were  
nearly 100 feet above the  
waters of the Licking river.  
The timbers of the false work  
were beams about sixteen in-  
ches square. They were old  
and weather beaten, and had  
evidently been used before.  
However, in bulkiness and to  
all outward appearance they  
were strong. The facts show  
they were not strong enough  
for the immense weight they  
were required to bear. The  
burden of thirty-five or thirty-  
six men, or, for that matter, of  
3,600 men, would have been  
as nothing for these great  
beams of yellow pine. It was  
the mass of iron, weighing hun-  
dreds upon hundreds of tons,  
that overcame them, wrou-  
ght ruin and gathered an aw-  
ful harvest for death.

It was about 10:30 o'clock  
this morning when thirty-six  
men were in the traveler, and  
many more were working be-  
low when the awful moment  
came. It came, too, like a bolt  
from heaven. No warning  
came from those overtaxed  
beams of sturdy pine. Sud-  
denly, as if broken by some  
irresistible, invisible force, they

broke and crashed down into  
the river below, a mass of ruins  
under which a score of human  
lives went out.

Of course, there was a rush  
to the scene from both sides of  
the river. The debris filled  
the deep stream from bank to  
bank. People filled both shores  
but from the configuration of  
the wreck aid was most easily  
rendered from the Newport  
side. The stream was soon  
full of skiffs and the work of  
rescuing the living began and  
went on bravely without a re-  
specting head. Indeed, it was  
done quite as well, perhaps  
better than it would have been  
done by any organized life sav-  
ing corps. This work was  
kept up all day, and it is still  
going on to-night. The police  
of the three sister cities  
were soon at the scene, and  
they rendered noble service in  
caring for the dead and in re-  
moving the wounded to homes  
or hospitals.

Twenty are known to be  
killed, seven are missing and  
the number of injured is great.

**Convicts Become Lunatics.**

"Handy" Brahan, a mur-  
derer, and James Steffens, con-  
victed of criminal assault, were  
placed in jail last evening on  
the charge of lunacy. They  
were prisoners at Eddyville until  
several days ago, when they  
lost their minds. Brahan  
and Steffens have like sentences.  
They have mania for fighting  
and the officer who is taking  
them to the asylum at Lexing-  
ton had much trouble in keeping  
them from injuring some  
one.—Courier Journal.

**INDIANA TORNADO.**  
It Sweeps Through the Country  
Five Miles North of Indianapolis

Indianapolis, June 17.—A  
tornado swept five miles north  
of this city this evening. A  
partially finished fair building  
on the new fair grounds  
was blown down. Scarcely  
one timber remained connected  
with another, and the debris  
was scattered for several  
hundred yards. Forty men  
were employed on the building,  
but they fled to a small shed  
for safety, and this was im-  
touched by the storm. Barns  
on contiguous farms were  
picked up and dashed to  
pieces, and several farm  
houses were damaged.

Fences were blown down  
and scores of trees uprooted.  
An immense fall of rain followed  
the wind storm, flooding  
the minor streams and caus-  
ing considerable loss.

## SCORES DEAD.

**A Cyclone Causes Awful Loss of  
Life in Minnesota.**

**Estimates of the Killed Run Forty to a  
Hundred.**

St. Paul, Minn., June 16.—

A storm of wind and rain,  
which in some sections devel-  
oped into a veritable cyclone,  
laid waste the southern central  
portion of the State late yester-  
day afternoon, and it will be  
some days before the full ex-  
tent of the disaster is known.

That there has been loss of  
life is beyond question, but  
time alone can tell how many

lives will do, you al-  
ways lose by a long one. You  
lose in clearness; you lose in  
honest expression of meaning;  
and, in the estimation of all  
men who are capable of judging,  
you lose in reputation for  
ability.

The only true way to shine  
even in this false world, is to  
be modest and unassuming.  
Falseness may be a thick crust,  
but in the course of time truth  
will find a place to break through.

Elegance of language may  
not be in the power of us all,

but simplicity and straightfor-  
wardness are.

Write much as you would  
speak, and as you think. If  
with your inferior, speak no  
coarser than usual; if with your  
superior, speak no finer. Be  
what you say, and within the  
rules of prudence. No one  
ever was a gainer by singularity  
of words or in pronunciation.

The truly wise man will  
so speak that no one will ob-  
serve how he speaks. A man  
may show great knowledge of  
chemistry by carrying bladders  
of strange gases to breathe; but  
one will enjoy better health  
and find more time for busi-  
ness, who lives on common  
air.

Sidney Smith once remark-  
ed, "After you have written  
an article, take your pen and  
strike out half the words, and  
you will be surprised to see  
how much stronger it is."

**RAINFALL TO ORDER.**

**A Kansas Concern That Bemis  
Dyersburg.**

Goodland, Kas., June 16.—

The drought of the last few  
days has given way to a  
heavy rain which fell in refresh-  
ing quantities.

The farmers have been suffer-  
ing from drought for several  
weeks, and had become  
despondent over the situation  
when they contracted with the  
Swisher Rain company to cause

a bountiful rain. Last night  
rain began to fall and contin-  
ued falling all night.

The farmers, of course, attri-  
bute the rainfall to the rain  
makers and are enthusiastic  
over the latter's success.

The manager of the Swisher  
company claims he can produce  
rain on twenty-four hour's no-  
tice at any time, in any part of  
the continent.

Madison, Ind., June 18.—

In 1824 there lived in Louis-  
ville, Ky., a Presbyterian  
minister named Balden, who  
prophesied that in 1846 and  
1847 there would be a three-  
years' war in the United States  
and another war in '61 and '65,  
that in 1870 and '71 there  
would be the greatest destruc-  
tion of life and property ever

known and in 1913 or 1914  
would come the final dissolu-

JUDGE W. W. ROBERTSON,

Of Graves County.

Is a candidate for Congress from this, the First District. Election Nov. 1892. He is subject to the action of the Democratic party.

JUDGE JAMES CAMPBELL,

Of McCracken County,

Is a candidate for Congress from this, the First District. Election November, 1892. He is subject to the action of the Democratic party.

JOHN K. HENDRICK,

Of Livingston County,

Is a candidate for Congress from the First district. Election November, 1892. Subject to the action of the Democratic party.

FOR SHERIFF,

We are authorized to announce JOHN T. FRANKS a candidate for sheriff of Crittenden county, subject to the action of the Republican party. He will appreciate your vote and influence.

To the VOTERS of CRITTENDEN COUNTY: Having served you for the past two years as Sheriff, I take this method of expressing to you my gratitude for the confidence imposed in me. It has been the custom of the county to endorse all past Sheriffs who have asked it of the people, and feeling that my treatment of the people has been such as to merit an endorsement at your hands, I announce myself as a candidate for re-election.

I feel that my experience will enable me to serve you better in the future than in the past, and if chosen by the people, will endeavor to do so.

Yours truly,

A. L. CRUZ.

To the VOTERS of Crittenden County.

I hereby announce myself as a candidate for re-election to the office of Circuit Court Clerk subject to the action of the Republican party. I wish to return to the people of whatever may be my lot in the future one of the brightest spots in my life will be the memory of what the people of Crittenden county have done for me. I have endeavored to regulate my official conduct as to be worthy of the confidence reposed in me and the honor conferred upon me. My official life is before you. If I have discharged the duties of the office with a conscientious regard for the interest of the people, without respect to any party or shade of political belief but treating all men exactly alike and if I have performed the work of the office properly and right I respectfully ask an endorsement at your hands. For the next term if elected, I can promise nothing more than what I have earnestly endeavored to do in the past to faithfully and impartially discharge every duty incumbent upon the office, with profound gratitude for your support.

Very Respectfully,  
H. A. Haynes.

To the VOTERS of CRITTENDEN COUNTY: I respectfully announce myself a candidate for the office of Circuit Court Clerk, subject to the action of the Democratic party. I have for twenty four years stood with the rank and file of the party, and with them borne the heat and burden of the day, in doing so, I simply expressed my conviction of the policy of the two great parties of the country. While I am a democrat I have always cheerfully recognized the right of my neighbor to entertain and express different opinions. In this office its occupant can in no way make or influence the laws of State or Nation and I maintain it should be filled regardless of political prejudices and without pandering to partisanship, the people should with reference to the position and standing of the man and with a zealous regard for his qualifications to discharge the duties of the office, select and elect a good man and not a partisan.

My business training has led me for a number of years in a channel which taught and instructed me in the duties of this office, and without presumption or egotism I tell that I am qualified for the discharge of its duties, and can promise if elected to make a faithful and competent clerk. To my many friends of all parties if you can agree with me in the sentiments I have here expressed I ask your suffrage and if it should be my good fortune to be your choice you will ever have my heartfelt gratitude; and I assure you I shall recognize and appreciate my position if elected, as that of a public servant and from no official act of mine will any man know my politics.

Very Respectfully,

J. B. Finley.

## ALL ONE WAY.

The Cleveland Cyclone Appears To Be On Time.

Chicago, Ill., June 20.—It is all over but the shouting. The bottom has dropped entirely out of all the Cleveland opposition, and the renomination of Cleveland is assured on the first ballot, unless something unexpected turns up, and that is hardly probable. Even Indiana will vote solidly for Cleveland, and Senator Voorhees will second his nomination. Ex-Secretary Whitney to-day sent for Mr. Hugh Dougherty and Mr. James Marlock, representing the Gray interests in the Indiana delegation; and after a short conference the two gentlemen returned to the Indiana headquarters and called a meeting of the delegation, and it was decided to cast the vote of Indiana on the first ballot for Cleveland.

It is very well understood from this proceeding that Gov. Gray has consented to take the second place on the ticket if it is tendered him, and it is also understood that Mr. Whitney has promised to bring about that end. Whether the goods can or will be delivered is another question. Certain it is that in 1888 Mr. Cleveland would not consent to Gov. Gray as his running mate, but he may have changed his mind since then. There is considerable opposition to Gray in the Cleveland rank but if the managers want him, and Mr. Cleveland does not object, he will be nominated without any trouble.

Grover Will Get There.

O. M. James, received the following telegram Tuesday:

Chicago, Ill., June 21.—10:05 p. m. Cleveland will be the man. Jim McKenzie on platform committee.

R. C. Walker.

The Kansas People's party convention elected a woman as delegate at-large to the National Convention and passed a resolution favoring women suffrage.

The Frankfort Argus is worried because:

"Up to the present time the officials Capitol Square are working convict labor on the public grounds contrary to the provisions of the Constitution."

Whitelaw Reid lives in a mansion modeled after the feudal castles of old times, large enough for fifty men—men, women and dogs, and the walls are covered with silk. The house and its furnishings cost \$50,000. Although rolling in all this wealth, Mr. Reid's paper, the New York Tribune, has been run by "rat" labor for fifteen years. Organized labor all over the country will doubtless deliberate awhile before voting for a tucker with such a tool.—Kentuckyian.

The State Senate passed a bill Thursday which in effect, will prevent usurpary in the State. It provides that all officers and directors of corporations shall make oath that they will neither suffer nor permit the evasion or violation of any law of the Commonwealth in the interest of their corporation during their term of office.

Chicago, Ill., June 21.—II Senator David B. Hill, of New York, who is a good Democratic and has done good work for the interest of the Democratic party in New York and the nation, will now step to the front and make some more sacrifice for the party and allow Gov. Flower Chairman of the New York delegation, to withdraw that name and make the nomination of Grover Cleveland unanimous, that is all the Democracy at Chicago want now, and they are expecting Mr. Hill to accede to their wishes. It is mighty hard for a man who has set his heart upon the Presidency to give up his hopes and ambition, but greater men than Senator Hill have done so, and he should take a philosophical view of things that are not of this world as he would like to have them. Senator Hill is a young man yet, and if he is not made President he should remember that if he lives he will have another chance after the great ex-President is dead and gone. That Senator Hill will write such a letter many of his friends believe, though the Tammany leaders say that his name will go before the convention, if it only receives the 72 votes in New York State. It would be a neat and fitting thing, though, for Senator Hill to do, and it would not only help him in the future, but would help the party to which he has devoted so much of his zeal, tact and energy. It would note the part of wisdom for Senator Hill to allow his name to be presented to a convention when he knew that the mind of the convention was fixed unalterably upon another man. It would look a little like he was sulking in the great wigwam over which he has such a powerful control and was acting the part stubborn school boy. Now is the time to come out and act the manly part, and then if Mr. Cleveland should not be elected the Democratic party could not

## OUR SOSPENSIONS PENSION LIST.

The following from the Parallel Times is commendable to the thoughtful men of all political parties. Whenever anything is said about the extravagance of the government in dispensing the money it collects from the people, by taxation in pension, there is an element ready to cry out that the writer or speaker is an enemy to the ex Union Soldier and without patriotism or gratitude, while unworthy to the Treasury of the people goes the march of the increasing pension list, and into the heat, and din of the ordinary battle of life the people must rush and fight to earn the money that we must have to pay this bill. Read this and think:

One year ago there were 676,100 names on our pension roll. By the close of the present fiscal year, ending with the present month, there will be about 878,000 names on the pension roll, or quite as many as the entire force of Grant's armies at the close of the war.

We are now issuing new pensions at the rate of nearly or quite 20,000 per month, and by the close of the coming fiscal year the pension roll will reach 1,000,000, with the probability that number will be exceeded.

In short, we are likely soon to have on our pension roll more names than were on the entire army roll Lee surrendered at Appomattox.

Some seven years after the close of the war, when the pension appropriation had grown to the then appalling amount of \$30,000,000, General Garfield, Chairman of Appropriations, in reporting to the House that amount for pensions, felt called upon to apologize for the unexpected increase, and assured the House and country that the pension appropriation had reached its highest point, and that it would be speedily decreased.

Five years ago the steady growth of pensions scored the annual appropriation up to \$75,000,000. It was then believed that high-water mark had been reached, and such assurances were then given to the country by those who had favored the new pension bills, but the actual expenditure for pensions this year looks up the startling sum of \$140,847,417, being nearly three times the amount of the entire revenues of the Government when Lincoln was elected President.

If we shall continue to increase pensions during the next fiscal year, we will be paying more pensions than were ever in the Union armies at any time during the war, and yet hundreds of thousands have died and other hundreds of thousands have never applied for a pension.

The natural inquiry is—Where do all the pensioners come from? Who can answer that question? The next natural inquiry is—Where is the pension prodigal to stop? Who can answer that now grave question?

Another inquiry likely to come up from the people at no distant day is—How long will the nation submit to the most prodigal pension system of the world's history, when countless numbers of the most gallant soldiers have never sought a pension and would now blush to be classed as pensioners? Who can answer that question?

The State Senate passed a bill

Thursday which in effect, will prevent usurpary in the State. It provides that all officers and directors of corporations shall make oath that they will neither suffer nor permit the evasion or violation of any law of the Commonwealth in the interest of their corporation during their term of office.

Chicago, Ill., June 21.—II Senator David B. Hill, of New York, who is a good Democratic and has done good work for the interest of the Democratic party in New York and the nation, will now step to the front and make some more sacrifice for the party and allow Gov. Flower Chairman of the New York delegation, to withdraw that name and make the nomination of Grover Cleveland unanimous, that is all the Democracy at Chicago want now, and they are expecting Mr. Hill to accede to their wishes. It is mighty hard for a man who has set his heart upon the Presidency to give up his hopes and ambition, but greater men than Senator Hill have done so, and he should take a philosophical view of things that are not of this world as he would like to have them. Senator Hill is a young man yet, and if he is not made President he should remember that if he lives he will have another chance after the great ex-President is dead and gone. That Senator Hill will write such a letter many of his friends believe, though the Tammany leaders say that his name will go before the convention, if it only receives the 72 votes in New York State. It would note the part of wisdom for Senator Hill to allow his name to be presented to a convention when he knew that the mind of the convention was fixed unalterably upon another man. It would look a little like he was sulking in the great wigwam over which he has such a powerful control and was acting the part stubborn school boy. Now is the time to come out and act the manly part, and then if Mr. Cleveland should not be elected the Democratic party could not

be good one and bring us plenty of money into the country.

The legislature has repealed the prohibition law in Muhlburg county, and the county will try high license. The old saw that prohibition does not prohibit proves correct often than otherwise, but this is a sad reflection upon our boasted cry that, in this country, the majority rules.

SPEECH BY OUR REPRESENTATIVES.

The Washington correspondent of the Courier-Journal has the following concerning our representative, Representative Stone for the past week has been collecting tariff data, and yesterday he got the floor on the bill and spoke for nearly an hour made an exhaustive speech on the tariff. It was not devoted to the bill, but took in the entire subject. He said that the protectionists were abandoning their claim that protection was necessary to foster infant industries, and were shouting that protection was for the benefit of the workingman; that it protected American mechanics from the "pauper labor of Europe." Mr. Stone said that the workingman had protection, for pauper labor came over here and at once began to compete with American working people, and the result was a reduction of wages. Mr. Stone's speech was pronounced by all who heard it an admirable and carefully prepared address.

There is general regret here among public men over the refusal of Mr. Watterson to be a member of the Committee on Resolutions. He has been a member of the committee so long and has fought so bravely and so manfully for the cherished principle of his party, revenue reform, when its very life depended

on us defense, that all workingmen and sincere revenue reformers regret to see him off its membership, or that know where lieing Watterson stood he had right by the hand the star-eyed golden calf of tariff reform.

Mr. McKenzie is, however, a able tariff reformer and smart enough to outwit the dullest of the tariff reform club when it makes its appearance. On the committee appointed today are several old friends, others, but is hardly though possible that at this time in our study of the tariff any attempt will be made to turn the hands of the tariff reformers back or to fool with its mechanism. All we want is for the committee to reiterate to the people the plain truth that the plain tariff is a tax upon the poor for the benefit of the rich and that no tax shall be levied upon the people except to raise a sufficient revenue to defray the expenses of the Government so economically administered.

After that let the great Cleveland cyclone come and sweep off the root of the wigwam with ringing cheer for the man who has given the country the only honest, economical and honest administration since the day of the war.

## A MALTREATED TEACHER.

Miss Lent Receives Heavy Damage from Her Pupils.

Persons.

Blue Earth City, Minn., June 18.

A case which has attracted much attention, not only in this country, but throughout the north, has just been concluded in the Franklin county district court; the jury having rendered a verdict of \$14,000 in favor of Miss Lent, the school teacher who was so brutally maltreated and maimed for life by the parents of one of her pupils named Craven.

The case was one of the greatest battles ever fought in the state of Minnesota. The defendants set up a plea of justification. The young lady is a mental and physical wreck, and a criminal action will at once be commenced against the Cravens. There was intense excitement during the trial.

The case of Daniel Stone against Washington Life Insurance Co., for two policies of \$5,000 each was on Monday. The plaintiff was represented by the attorneys James & Moore, Blue & Blue, E. C. Flanary, J. W. Lockett and O. M. James. The defense, by Husbands, Nunn & Cruse, J. W. Deboe and C. S. Nunn. From Monday morning until Friday noon the time was taken up with the examination of witnesses. On Friday afternoon Blue & Blue and Moore spoke for the plaintiff. Saturday morning Nunn and Cruse represented the case for the defense. James and Lockett chose the argument for the plaintiff, and L. D. Hubbard for the defense. Both sides made able speeches and considered the interest was manifested.

After the ceremony the bridal party repaired to the home of the Grosch's father, where they received congratulations from about one hundred invited guests, then to the dining-room, where they found the table fairly groaning under its weight of good things to which all seemed to do ample justice.

On retiring from the table after dinner, they were entertained by hearing some splendid music, rendered by the Olive Branch string band.

They were then invited to look over the presents, which were as follows:

Set of knives and forks, \$3. A frazer; glass set, Mrs. J. L. Cardwell; lamp, Dannie Hubbard and Miss Cordie Drenor; wash bowl and pitcher, Dixie and David Allison; butter dish, Annie Todd; sugar bowl, S. V. While ever merchant will tell you that provisions and fruit jars have advanced 12% percent. Is it not advisable to buy from the leading grocer, Schwabs, who bought early and before the advance, as he does always and he never fails to be in time to buy when the market is the lowest, and he is prepared to give you extra inducements to buy in order to make room. Having those large bushels full and they must get empty. Call and see him and get prices.

Prof. Hayes, colored, who wore a high hat, along tail coat, slanting shoes, frilled shirt, a gold watch chain, with a style of loom patterned after the sure winners of a cake walk, went to Marion, Ky., recently and started a colored normal school. After collecting all the money he could and borrowing all the clothing, watches, money, rings, books, etc., he left the town and the colored people to hold the bag—Morganfield Sun.

The normal school of Marion Academy will close Friday. There are about twenty-five teachers in attendance.

James Brown, "Uncle Jimmy," as he is familiarly called, one of our oldest citizens and a much respected man, living a few miles north of town met with a sad and perhaps fatal accident Saturday. He was endeavoring to confine a cow supposed to have been affected with hydrophobia, when the beast ran over him, throwing him violently to the ground, breaking his collar bone and otherwise injuring him. A paper asking funds for his financial relief was circulated on our streets, and was responded to with a willingness and liberality characteristic of our citizens when confronted by the wants of the poor, the needy and the suffering.

## FLED FOR THEIR LIVES.

Mahaney City, Pa., Flooded and Much Damage Done.

Pottsville, Pa., June 18.—The first reports of the flood at Mahaney City were exaggerated. The dam which burst contained 3,000,000 gallons of water. It had been in bad condition and was being repaired. The repair gang had just left work when the dam gave way.

The Lehigh Valley tracks were washed away and the floods poured toward Mahaney City. The little village of Robertson was struck, and although no lives were lost many persons were rendered homeless by the wrecking of houses.

When the flood reached Mahaney City it spread itself out over three-fourths of the place, filling cellars and rushing into business places to a depth of three or four feet. Here the principal damage was done.

Debris consisting of rocks, trees, timber and dirt is piled up on all streets west of Main street to a depth in some places of ten and fifteen feet. Business houses are in a sad condition and the loss to stock will run very heavy. Large forces are at work clearing the streets and repairing the railroads.

## FOUR ITALIANS LYNCHED.

Terrible Retribution Which Followed a Murder in Washington State.

Sedro, Wash., June 15.—A report of the brutal murder of the foreman at Smith Bros. camp, on the line of the Monte Cristo railroad, by four Italians, followed by the lynching of the murderers, was brought here this evening.

John A. Nelson, a white man who has lived at Silverdale for sometime, and who has been in the employ of Smith Bros., railroad contractors, was given the position of foreman over the gang of Italian Laborers on the grade of the Monte Cristo road. It is said that Nelson was attacked by the Italians and during the fight an iron bar was driven through his head, killing him instantly.

The white men at the camp, numbering about sixty, became enraged over the brutal murder that they seized the Italians, and in presence of 150 of their countrymen, they lynched the four. No further particulars have been received, as there are no wires to the scene.

## NEGROES SEEK VENGEANCE.

They Attempt to Lynch One of Their Race Who Defrauded Them.

Kingfisher, O. T., June 16.—James Holland, a negro real estate dealer, nearly lost his life at the hands of a negro mob this afternoon. Holland is a member of the firm of Holland & Jones, both negroes, who advertised just before the recent opening of the Indian lands in this vicinity that they were prepared to give every negro applicant a claim in exchange for \$10. Hundreds answered the advertisement, came to the new country, paid their money, but of course got no claims.

The indignation among the negroes has been intense, and to-day they took Holland from his office and were about to hang him to a telegraph pole, when the police interfered and rescued him. He was placed in jail, around which the negroes are swarming vowing vengeance.

## He Could Try.

Detroit Free Press.

They had been married fourteen weeks.

"Frank, dear," she said one evening in the gloaming, "would you miss me very much if I should die?"

"Don't ask me such grue-

some questions, darling," he protested.

"But would you, dear?" she insisted.

"More than words can express," he said, clutching her hands as if he were losing her even then.

"And, Frank, dear, do you think you could ever find any one to take my place?"

The whippoorwill's mournful threnody came up from the old fence overgrown with thickets, and a bat circled about in the starlit shadows of the night.

"No, darling," he murmured, "but I could try."

And a cloud came slowly up from the hill-haggled horizon.

## A CLUB FOR MOTHERS.

THE HOUSEKEEPERS' ORGANIZATION OF COCONUT GROVE.

Florida Women Who Have an Interesting Way of Securing Relaxation from Their Household Duties—Some Rules and Objects of the Society.

Away down on the east coast of Florida 300 miles south of St. Augustine, is the pretty little settlement of Coconut Grove. It is situated on the banks of the Miami River, one of the loveliest sheets of water in the world, and fishing that it is to the country to conceive for those who are not afraid to brave the daily mails and telegraph wires, for at present there are no railroads or steamboats, not even a wagon road, connecting us with the outside world—sail boats only, but plenty of those, and good ones, too, which is very necessary, as the nearest market or source of supply is Key West, 150 miles to the south.

"Ambry," said his mother one day, "go cut a few pieces of wood. There are plenty of large pieces to cut. Your lamp foot is well, and you haven't had a toothache since last week. You needn't change your shoes, for you've got on old ones. And the ax is behind the cellar door. I saw it there five minutes ago."

"Now, mother," said Ambry, in an injured tone, "have you looked at that? How do you suppose I can cut wood with an ax that has an edge like the coast line of North America?"—Harper's Young People.

Two centuries ago the traveler in Japan, had such been allowed, would have seen in public places the following inscription in Chinese characters: "As long as the sun shall warm the earth, let no Christian be so bold as to come to Japan, and let all know that the king of Spain himself, or the Christ that's God, or the great God of all, if he violate this command, shall pay for it with his head."—Detroit Free Press.

Baroness' Perquisites at the Austrian Courts.

At the Austrian court the custom of perquisites is still in full force, and it is difficult for any one who has not seen with his own eyes how things go there to realize what the servants' perquisites really mean. Some of them are entitled to claim all the bottles of wine which have been uncorked, but not supped; others those which have been brought up from the cellar, but left untouched; while the wine that remains in the glasses after the guests have risen from dinner is rebottled and sold by the footmen.

The court servants make open traffic of the imperial lodgings, and the keepers of small hotels and restaurants buy from them food, fish and flesh, not to mention many delicacies, and especially wines and liquors.

Many ladies belonging to the second class society of Vienna come to the basement of the Hofburg and buy grand old vintages at a low price and at the cost far below what they would have to pay for the cheapest Havana. Cigars are also sold in great quantities by the servants. The emperor used to have a positive horror of gas and electric light, and until very lately used absolutely to forbid the use of anything but pure wax to light up the palace. It used to be very amusing to see the servants, to whom the half burned candle belonged by right, make a rush to blow them out the moment the guests had walked out of the rooms.—New York Recorder.

He Opposed an Emperor.

The German papers relate that during the visit of the young emperor of Germany to Helgoland, the emperor, wishing to study the fortifications of the island, expressed an intention to go by balloon.

Against this project the emperor's brother and other officers protested, al-

lasing that the emperor should not risk his personal safety in a balloon—even a captive one.

The emperor persisted, when General von Hohlnik placed himself in his way, blocking the path and at the same time declaring that the law of Prussia forbade the king to risk his person unnecessarily, or to "travel outside of Europe" without the permission of the upper branch of the Prussian legislature. The emperor would violate this law, he declared, if he ascended in the balloon.

The emperor, who had the reputation

of being a very headstrong man, stood still for a moment, while the officers about looked on in wonder at the spectacle of a subject opposing physical force to the monarch's will.

Then the emperor embraced General von Hohlnik, assured him that he was entirely right, and afterward presented him with the grand cross of the Order of the House of Hohenzollern.
